RE: Tariff Revision

Dear Mr. Hinton,

Please review the addition we are requesting to be made to the Cumberland Falls Highway Water District's tariff. This change is concerning water that is being used by fire departments for things other than fire protection purposes. Since this water district does not charge the fire departments for water usage we feel that this agreement is necessary to help with the prevention of frivolous usage and we hope by adding this to our tariff that it will cut down on the water loss this district is experiencing. Each fire department will be required to sign this agreement and a copy will be given to them for their files.

This district feels that if we are willing to furnish the water for fire protection free of charge to the fire departments that this should not be taken advantage of for uses such as filling swimming pools, cleaning parking lots, washing vehicles, etc. all for the monetary gain of the fire departments.

We try our best to operate this district in the most cost efficient manner possible and we feel this will help in this matter.

Sincerely,

Marshall Lovitt
District Manager
Cumberland Falls Highway Water District
